

# Pulsarlube PL2 (Heavy Duty Grease)

# **1. MANUFACTURER INFORMATION**

- 1) Product Name : Pulsarlube PL2 (Heavy duty Grease)
- 2) Recommended use of the chemical and restrictions on use
- A. Product description : An electrochemical automatic single point lubricator
- B. Restrictions on use : Not available except the intended use of the product
- 3) Supplier's details

| KLT Co., Ltd.                        | Telephone Number for Information: |
|--------------------------------------|-----------------------------------|
| 34-12, Bangchon-ro 955beon-gil       | Tel.: +82 (2) 2135-3788           |

Emergency telephone number +82 (2) 2135-3788

# 2. HAZARD(S) IDENTIFICATION

#### 1) Classification of the substance or mixture GHS US classification

Carcinogenicity, Category 2 Full text of H-statements: see section 16 H351 Suspected of causing cancer.

### 2) GHS Label elements, including precautionary statements GHS US labelling

 $\circ$  Hazard pictograms (GHS US) :

- Signal word (GHS US) : Warning
- Hazard statements (GHS US) : H351 Suspected of causing cancer.
- Precautionary statements (GHS US)
  - P201 Obtain special instructions before use.
  - P202 Do not handle until all safety precautions have been read and understood.
- P280 Wear protective gloves/protective clothing/eye protection/face protection.

P308+P313 - If exposed or concerned: Get medical advice/attention.

P405 - Store locked up.

P501 - Dispose of contents/container to hazardous or special waste collection point, in accordance with local, regional, national and/or international regulation.

- 3) Other hazards which do not result in classification No additional information available
- 4) Unknown acute toxicity (GHS US) No additional information available

# 3. COMPOSITION/INFORMATION ON INGREDIENTS

### 1) Substances

Not applicable

### 2) Mixtures

| Name Product identifier |                    | %       | GHS US classification            |
|-------------------------|--------------------|---------|----------------------------------|
| Asphal t                | CAS-No.: 8052-42-4 | 0.1 - 5 | Carc. 2, H351<br>STOT RE 2, H373 |
| Graphite                | CAS-No.: 7782-42-5 | 0.1 - 5 | Aquatic Acute 3, H402            |

Full text of hazard classes and H-statements : see section 16

## 4. FIRST AID MEASURES

### 1) Description of first aid measures

| First-aid measures general<br>First-aid measures after inhalation<br>First-aid measures after skin contact<br>First-aid measures after eye contact<br>First-aid measures after ingestion | <ul> <li>: IF exposed or concerned: Get medical advice/attention.</li> <li>: Remove person to fresh air and keep comfortable for breathing.</li> <li>: Wash skin with plenty of water.</li> <li>: Rinse eyes with water as a precaution.</li> <li>: Call a poison center or a doctor if you feel unwell.</li> </ul> |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2) Most important symptoms and effects<br>No additional information available                                                                                                            | s (acute and delayed)                                                                                                                                                                                                                                                                                               |
| 3) Immediate medical attention and spec<br>Treat symptomatically.                                                                                                                        | cial treatment, if necessary                                                                                                                                                                                                                                                                                        |

### **5. FIRE-FIGHTING MEASURES**

### 1) Suitable (and unsuitable) extinguishing media

Suitable extinguishing media : Water spray. Dry powder. Foam.

### 2) Specific hazards arising from the chemical

Hazardous decomposition products in : Toxic fumes may be released. case of fire

### 3) Special protective equipment and precautions for fire-fighters

| Protection during firefighting | : Do not attempt to take action without suitable protective |
|--------------------------------|-------------------------------------------------------------|
|                                | equipment. Self-contained breathing apparatus. Complete     |
|                                | protective clothing.                                        |

### 6. Accidental release measures

1) Personal precautions, protective equipment and emergency procedures For non-emergency personnel Emergency procedures : Ventilate spillage area. For emergency responders

| PSDS (Product Safety Data She                                                          | eet)   | according to Federal Register / Vol. 77,<br>No. 58 / Monday, March 26, 2012 / Rules and Regulations                                           | Rev  |

#### 2) Appropriate engineering controls

Appropriate engineering controls Environmental exposure controls : Ensure good ventilation of the work station.

: Avoid release to the environment.

#### 3) Individual protection measures/Personal protective equipment

# Hand protection

Protective gloves

Eye protection Safety glasses

### Skin and body protection

Wear suitable protective clothing

#### **Respiratory protection**

In case of insufficient ventilation, wear suitable respiratory equipment

### Personal protective equipment symbol(s)

# 9. PHYSICAL AND CHEMICAL PROPERTIES

### 1) Information on basic physical and chemical properties

| Physical state                        | : Solid             |
|---------------------------------------|---------------------|
| Appearance                            | : Paste.            |
| Colour                                | : Black             |
| Odour                                 | : Characteristic    |
| Odour threshold                       | : No data available |
| рН                                    | : No data available |
| Melting point                         | : No data available |
| Freezing point                        | : Not applicable    |
| Boiling point                         | : No data available |
| Flash point                           | : Not applicable    |
| Relative evaporation rate             | : No data available |
| (butylacetate=1)                      |                     |
| Flammability (solid, gas)             | : Non flammable.    |
| Vapour pressure                       | : No data available |
| Relative vapour density at 20°C       | : No data available |
| Relative density                      | : Ca. 0.9 @ 20℃     |
| Solubility                            | : Insoluble.        |
| Partition coefficient n-octanol/water | : No data available |
| (Log Pow)                             |                     |
| Auto-ignition temperature             | : Not applicable    |
| Decomposition temperature             | : No data available |
| Viscosity, kinematic                  | : Not applicable    |
| Viscosity, dynamic                    | : No data available |

# PSDS (Product Safety Data Sheet)

according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

Explosive limits Explosive properties Oxidising properties

- : Not applicable : No data available : No data available
- 2) Other information

No additional information available

# **10. STABILITY AND REACTIVITY**

### 1) Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

### 2) Chemical stability

Stable under normal conditions.

### 3) Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

### 4) Conditions to avoid

None under recommended storage and handling conditions (see section 7).

### 5) Incompatible materials

No additional information available

### 6) Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## **11. TOXICOLOGICAL INFORMATION**

### 1) Information on toxicological effects

| Acute toxicity (oral)       | : Not classified |
|-----------------------------|------------------|
| Acute toxicity (dermal)     | : Not classified |
| Acute toxicity (inhalation) | : Not classified |

| Graphite (7782-42-5)              |                                                                           |
|-----------------------------------|---------------------------------------------------------------------------|
| LD50 oral rat                     | > 2000 mg/kg bodyweight Animal: rat, Animal sex: female, Guideline:       |
|                                   | OECD Guideline 423 (Acute Oral toxicity - Acute Toxic Class Method)       |
| LC50 Inhalation - Rat             | > 2 mg/l air Animal: rat, Animal sex: male, Guideline: OECD Guideline 403 |
|                                   | (Acute Inhalation Toxicity)                                               |
| LC50 Inhalation - Rat (Dust/Mist) | > 2000 mg/l Source: ECHA                                                  |

| Skin corrosion/irritation                                                      | : Not classified                                                       |
|--------------------------------------------------------------------------------|------------------------------------------------------------------------|
| Graphite (7782-42-5)                                                           |                                                                        |
| рН                                                                             | 7 (1.3 %)                                                              |
| Serious eye damage/irritation<br>Graphite (7782-42-5)                          | : Not classified                                                       |
| pH                                                                             | 7 (1.3 %)                                                              |
| Respiratory or skin sensitisation<br>Germ cell mutagenicity<br>Carcinogenicity | : Not classified<br>: Not classified<br>: Suspected of causing cancer. |
| Asphalt (8052-42-4)                                                            |                                                                        |
| NOAEL (chronic, oral,<br>animal/female, 2 years)                               | < mg/kg bodyweight                                                     |
| IARC group                                                                     | 2B - Possibly carcinogenic to humans                                   |
| In OSHA Hazard Communication                                                   | Yes                                                                    |

Carcinogen list

| Reproductive toxicity<br>STOT-single exposure<br>STOT-repeated exposure | : Not classified<br>: Not classified<br>: Not classified           |
|-------------------------------------------------------------------------|--------------------------------------------------------------------|
| Asphalt (8052-42-4)                                                     |                                                                    |
| LOAEC (inhalation,<br>rat,dust/mist/fume, 90 days)                      | 0.0207 mg/l air Animal: rat, Guideline: other:OECD 451             |
| STOT-repeated exposure                                                  | May cause damage to organs through prolonged or repeated exposure. |
|                                                                         |                                                                    |

| Aspiration hazard    | : Not classified |
|----------------------|------------------|
| Viscosity, kinematic | : Not applicable |

# **12. ECOLOGICAL INFORMATION**

### 1) Toxicity

Ecology - general : The product is not cor

: The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

| Graphite (7782-42-5) |                                                                        |  |  |
|----------------------|------------------------------------------------------------------------|--|--|
| LC50 - Fish [1]      | > 100 mg/l Test organisms (species): Danio rerio                       |  |  |
|                      | (previous name: Brachydanio rerio)                                     |  |  |
| EC50 - Crustacea [1] | Crustacea [1] > 100 mg/l Test organisms (species): Daphnia magna       |  |  |
| EC50 72h - Algae [1] | ] > 100 mg/l Test organisms (species): Pseudokirchneriella subcapitata |  |  |
|                      | (previous names: Raphidocelis subcapitata, Selenastrum capricornutum)  |  |  |
| ErC50 algae          | 100 mg/l Source: ECHA                                                  |  |  |

### 2) Persistence and degradability

| Asphalt (8052-42-4)           |                                     |  |
|-------------------------------|-------------------------------------|--|
| Persistence and degradability | Not readily biodegradable in water. |  |
| Graphite (7782-42-5)          |                                     |  |
| Persistence and degradability | Biodegradability: not applicable.   |  |
| Chemical oxygen demand (COD)  | Not applicable                      |  |
| ThOD                          | Not applicable                      |  |
| BOD (% of ThOD)               | Not applicable                      |  |

### 3) Bioaccumulative potential

| Asphalt (8052-42-4)                                 |                                    |  |
|-----------------------------------------------------|------------------------------------|--|
| BCF – Fish [1]                                      | (no bioaccumulation expected)      |  |
| Partition coefficient n-<br>octanol/water (Log Pow) | > 6                                |  |
| Bioaccumulative potential                           | No bioaccumulation data available. |  |
| Graphite (7782-42-5)                                |                                    |  |
| Bioaccumulative potential                           | Not bioaccumulative.               |  |

### 4) Mobility in soil

| Asphalt (8052-42-4) |                                                       |
|---------------------|-------------------------------------------------------|
| Ecology – soil      | No (test)data on mobility of the substance available. |

### 5) Other adverse effects

No additional information available

# PSDS (Product Safety Data Sheet)

13. DISPOSAL CONSIDERATIONS

# 1) Disposal methods

Waste treatment methods

: Dispose of contents/container in accordance with licensed collector's sorting instructions.

### **14. TRANSPORT INFORMATION**

### In accordance with DOT / TDG / IMDG / IATA

#### 1) UN number

Not regulated for transport

#### 2) UN proper shipping name

| Proper Shipping Name (DOT)  | : Not applicable |
|-----------------------------|------------------|
| Proper Shipping Name (TDG)  | : Not applicable |
| Proper Shipping Name (IMDG) | : Not applicable |
| Proper Shipping Name (IATA) | : Not applicable |

### 3) Transport hazard class(es)

| Transport hazard class(es) (DOT)  | : Not applicable |
|-----------------------------------|------------------|
| Transport hazard class(es) (TDG)  | : Not applicable |
| Transport hazard class(es) (IMDG) | : Not applicable |
| Transport hazard class(es) (IATA) | : Not applicable |

### 4) Packing group

| Packing group (DOT)  | : Not applicable |
|----------------------|------------------|
| Packing group (TDG)  | : Not applicable |
| Packing group (IMDG) | : Not applicable |
| Packing group (IATA) | : Not applicable |

#### 5) Environmental hazards

Other information

: No supplementary information available.

#### 6) Special precautions for user

| : No data available |
|---------------------|
| : No data available |
| : No data available |
| : No data available |
|                     |

#### 7) Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable

# **15. REGULATORY INFORMATION**

#### 1) US Federal regulations

Commercial status of components according to the United States Environmental Protection Agency's Toxic Substances Control Act (TSCA):

| Name     | CAS-No.   | Listing | Commercial status | Flags |
|----------|-----------|---------|-------------------|-------|
| Asphalt  | 8052-42-4 | Present | Active            |       |
| Graphite | 7782-42-5 | Present | Active            |       |

### 2) International regulations

### CANADA

| Asphalt (8052-42-4)                                   |
|-------------------------------------------------------|
| Listed on the Canadian DSL (Domestic Substances List) |

### Graphite (7782-42-5)

Listed on the Canadian DSL (Domestic Substances List)

### **EU-Regulations**

No additional information available

### **National regulations**

| Asphalt (8052-42-4)                                                |
|--------------------------------------------------------------------|
| Listed on IARC (International Agency for Research on Cancer)       |
| Listed on INSQ (Mexican National Inventory of Chemical Substances) |
| Graphite (7782-42-5)                                               |
| Listed on INSQ (Mexican National Inventory of Chemical Substances) |

### 3) US State regulations

No additional information available

### **16. OTHER INFORMATION**

#### according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| Data sources                | : ECHA (European Chemicals Agency). This MSDS is prepared based on KOSHA, NITE, ESIS, NLM, SIDS, IPCS, NCIS, etc. |
